## “MAKE YOUR HOME SEXY” PHILOSOPHY

Your home is more than just a place to live; it’s a mirror to your soul, a sanctuary where your truest self resides. It cradles your essence, holds your dreams, and reflects the journey of who you are becoming. Your home is the canvas on which your individuality is painted, where your spirit can breathe freely, and where every corner whispers the story of you.

To be unapologetically yourself is the boldest, most magnetic expression of beauty. When your space reflects that daring authenticity, it becomes more than just beautiful—it becomes powerful, sexy, alive with your unique energy.

This is the “Make Your Home Sexy” philosophy—to inspire you to create a space that is fearlessly your own, that invites you to live boldly, and dares you to express yourself without apology. Because when your home reflects who you truly are, it tells your story with every detail, boldly celebrating your individuality.

## KAMYAR MOGHADAM

*“Your interior is a reflection of the way you live,  
the places you go and the people you meet”*

Like Basquiat in art or Jean-Paul Gaultier in fashion, Kamyar Moghadam is undoubtedly the enfant terrible of interior design. Trained from an early age in the art of Persian carpets by his father, a renowned expert in the field, Kamyar later honed his creative instincts and design sensibilities at the prestigious Parsons School of Design. This fusion of heritage and cutting-edge education allowed him to establish a bold, unmistakably personal approach to decoration.

Innovative and visionary, Kamyar belongs to that rare circle of irreverent geniuses whose boldness is matched only by their immense talent. He has a rare gift for blending daring colors, bold patterns, and unexpected materials into harmonious compositions. Drawing inspiration from his extensive travels around the globe, Kamyar creates each piece in his own workshops, where traditional craftsmanship meets refined expertise, cutting-edge trends, and exceptional materials.

Through his work, he masterfully transforms memories of faraway places, fleeting sensations, and imagined worlds into warm, inviting interiors that tell a story—your story.

*“Your Journey, Reflected in Every Piece”*

Your travels, encounters, and experiences shape your interior. Each piece of furniture in your home tells a story—your story. Whether it’s a space to relax, work, share moments with others, or simply enjoy alone, furniture is an aesthetic and emotional choice. At Maison Moghadam, we craft furniture just as you love it—or better yet, just as you’ve dreamed it. With elegant lines and refined materials, our pieces strike the perfect balance between your desire for comfort and your need for functionality.

A modern interior space with a curved wall, a glowing spherical light fixture on a pedestal, and a dark bench. The lighting is warm and ambient, highlighting the textures of the wall and floor.

*“Elevating Everyday Moments”*

 RUGS AND CARPETS

## WHERE IT ALL BEGAN

It all started with a carpet over 60 years ago

In the 1970s, Princess Grace of Monaco allowed Alexander Moghadam to open a Persian rug shop at 23 Boulevard des Moulins, making this Monegasque address the place-to-be for lovers of Persian rugs. The Galerie Moghadam thus became the Official Supplier to the Palace of Monaco.

Mixing his expertise in fashion acquired at Parson's School of Design with his family's experience in Persian rugs, Kamyar Moghadam opened an entirely original concept: Fashion For Floors. On the same street as his father, he invested in the hôtel particulier that would go on to house some of the biggest names in luxury interiors, making 39 Boulevard des Moulins the essential destination for premium-quality design and elegant, unique decor.

FROM JAIPUR TO MONACO  
AND THE WORLD

*From Jaipur to Monte-Carlo, via the Tibetan plateau of Kathmandu, we travel the world in search of beauty that will light up your home.*

Maison Moghadam rugs are the result of over 60 years of experience in rugs and fashion and are made entirely by hand. We create our own designs and select the best materials, which are then brought to life in our workshops in India and Nepal. Behind each elegant creation is meticulous workmanship, executed with passion and joy.

CRAFTSMANSHIP

## CARDING

Yarn is wound on a wheel-like frame, and dipped and kept into boiling hot vats of dye to embed its intended colour, then hung to dry in the sun. We dye yarn to over 3000 colours.

## SPINNING

Following a millennial tradition coming from Persia, weavers sit down at the loom and spend up to one year hand-knotting their patterns, line after line, with a meticulous attention to detail.

## WASHING

Washers methodically pour water and a mild cleansing solution to pull out the dirt that every carpet has attracted. Each stroke flushes out what is unnecessary and at the same time increases the strength of the underlying knots.

5

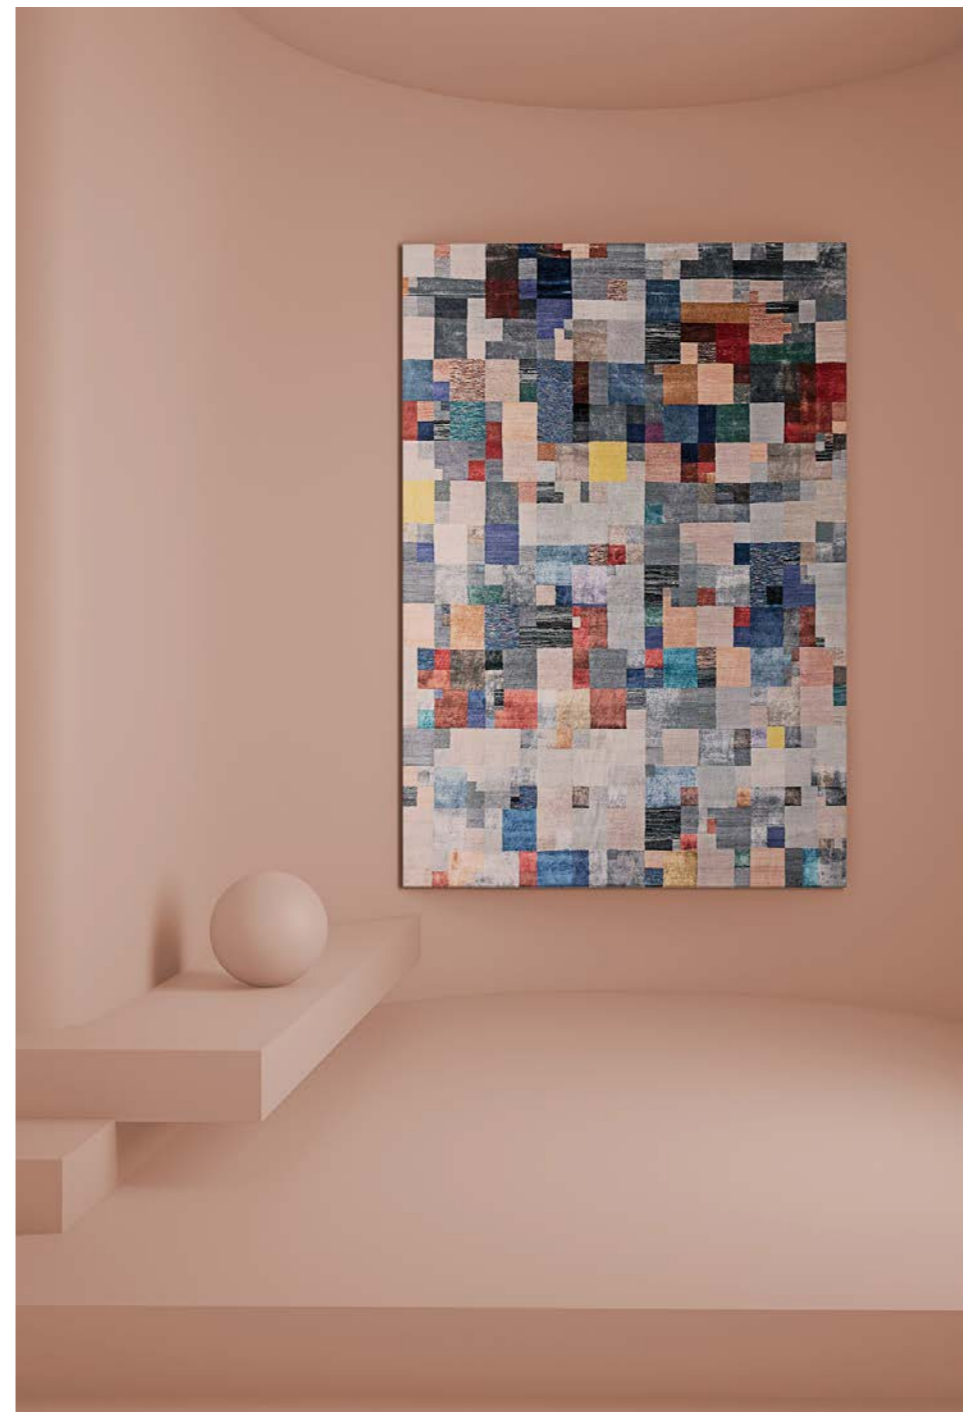

## GULTARASH

Gultarash is a specific technique that translates to “finding the flower”, since it was originally used to create a high-low effect that made the flower patterns pop out. Today it is used to highlight motifs or patterns, but also to create a textural effect.

# MARBELLOUS

MONTE CARLO

## THE WORLD OF ONYX

The decor of a space defines its soul. The colors, lighting, fabrics, and materials come together to create a unique alchemy. Among these materials, one stands out: onyx.

A stone with countless virtues, onyx is renowned for its ability to bring a sense of calm and emit positive energy. Its rare elegance transports us to ancient times. With its veined patterns, varied hues, and natural translucency, it allows light to pass through in a mesmerizing way. Born from the depths of the earth, onyx reflects the essence of the elements, with a texture that is both rich and enduring.

This extraordinary stone now has a name: Marbellous.

## BESPOKE FURNITURE

Small coffee tables or side tables with smooth, polished forms, and seating with a divine character to complement larger pieces or enhance the charm of a corner in any room.

## LIGHTING

With stately and sculptural forms, columns and timeless works of art elevate any space, casting a gentle, amber-hued light that enhances its ambiance.

## TABLEWARE

*“It is the first ever collection of dining furniture in pure onyx. We’re the only company in the world to do this”*

Presentation plates, offering dishes, glasses, bowls, and vases will enhance any dining experience or simply serve as stunning decorative elements, elevating all types of tables and buffets.

## CUSTOM PROJECTS

Designed in the Monaco-based ateliers of the renowned Maison Moghadam, Marbelous introduces a collection of products whose origins, forms, craftsmanship, and uses evoke the discovery of ancient Greek temple relics. This symbolism is heightened by the geometric shapes represented: circle, square, and rectangle—as if each piece were envisioned by a divine hand.
